

RELEASE PLAN

MANTHAN MALLIKARJUN, ROHITH BOLLINENI, SOMYA
BHATIA, ARSH MALHOTRA, AYUSH ARORA, RAHUL MAHENDRU

PRODUCT NAME: Flowrite
TEAM NAME: A ASMR
RELEASE NAME: one point oh
RELEASE DATE: 12/06/2019
REVISION NUMBER: 2
REVISION DATE: 12/02/2019

HIGH LEVEL GOALS

- Be able to journal without distractions
- Be able to have text fade as you type
- Export to at least one external service (Google Docs)
- Be able to create and edit multiple documents
- Be able to automatically save text as you type
- Spell check
 - Possibly Grammarly extension

SPRINTS

- **SPRINT 1**
 - (13) As a developer, I want Electron set up so I can create the macOS app
 - (13) As a developer, I want to create an abstract data store to hold all of the documents (*Partially incomplete*)
 - (8) As a developer, I want mockups so there is a clear vision of what the product will look like
 - (8) As a developer, I want to set up a CSS Framework to style the app easily
 - (5) As a developer, I want a logo created
 - (3) As a developer, I want linting set up so that code is consistent

- **SPRINT 2**

- (13) As a developer, I want to create an abstract data store to hold all of the documents (*Completed in this sprint*)
- (21) As a user, I want previous text written to fade as I type
- (13) As a user, I want to be able to open a document and write in it
- (13) As a user, I want the text to save as I type
- (8) As a user, I want to be able to disable the fading (*incomplete*)
- (5) As a user, I want a clean and consistent user interface
- (5) As a user, I want to be able to create documents (*incomplete*)

- **SPRINT 3**

- (5) As a user, I want to be able to create documents
- (21) As a user, I want an authentication system
- (21) As a user, I want all of my files synced to the cloud
- (13) As a user, I want a bug free and seamless experience
- (8) As a user, I want an easy installation process
- (13) As a user, I want to be able to export documents (*incomplete*)
- (13) As a developer, I want tests to ensure my code is good (*incomplete*)
- (8) As a user, I want spell check (*incomplete*)
- (8) As a user, I want to be able to disable the fading (*incomplete*)

- **SPRINT 4**

- (13) As a user, I want to be able to export documents (*completed*)
- (13) As a developer, I want tests to ensure my code is good (*completed*)
- (13) As a user I want a good UI
- (13) As a user, I want to have Grammarly so that I can fix my text before exporting (*not possible due to technical reasons*)

- (13) As a user I want a rock solid firebase integration
- (8) As a user, I want spell check (*implemented but not working due to technical reasons*)
- (8) As a user, I want to be able to disable the fading
- (3) As a user, I want a pretty landing page to show off this project
- (21) As a user, I want to be able to also install on Windows and Linux (*incomplete*)

REACH GOALS

- (21) As a user, I want to be able to also install on Windows and Linux
- (13) As a user, I want to have Grammarly so that I can fix my text before exporting
- (8) As a developer, I want continuous integration so that it outputs the app package without having to manually do it
- (3) As a user, I want a pretty landing page to show off this project
