REVISION NUMBER: 1

REVISION DATE: 12/01/2019

GOAL

The goal of this sprint is to work on the fundamental features of the application and to have a very very basic MVP of the product. This sprint will require a lot of collaboration and use of technologies.

SPRINT 2

- Last Sprint Backlog
  - *(13) As a developer, I want to create an abstract data store to hold all of the documents*
    - *Persist the data in a local database of some sort (2 hours)*
- (21) As a user, I want previous text written to fade as I type
  - Create an editable text box (1 hour)
  - Research a way to have text fading (5 hours)
  - Have text reappear as you backspace (3 hours)
- (13) As a user, I want to be able to open a document and write in it
  - Allow for a sidebar to show all available documents and selecting them loads a different document on the right side (4 hours)
- (13) As a user, I want the text to save as I type
  - On text change, save the document (3 hours)
- (8) As a user, I want to be able to disable the fading
  - Have a button that disables the fading (3 hours)

- (5) As a user, I want a clean and consistent user interface
  - Use Bulma to make the interface look simple and clean (8 hours)
- (5) As a user, I want to be able to create documents
  - Have a button that creates a new document (3 hours)
