Scenario:
1. sign in to Flowrite app
2. user should see all documents they have created as well as all text they have edited

I. User story 9 from sprint 3: As a user, I want to be able to export documents
Scenario:
1. select a document from document list
2. select "export doc as" either a TXT or DOC
3. user should see the document in their home folder on their computer

J. User story 10 from sprint 3: As a user, I want a bug free and seamless experience
Scenario:
1. start Flowrite app;
2. user should be able to go through all actions without experiencing any erros

K. User story 11 from sprint 3: As a user, I want an easy installation process
Scenario:
1. user should be able to load the site and open to sign in page

L. User story 12 from sprint 3: As a user, I want spell check
// Not Implemented

M. User story 13 from sprint 4: As a user, I want to be able to also install on Windows and Linux
1. user should be able to install Flowrite onto Windows and Linux

N. User story 14 from sprint 4: As a user, I want a good UI
Scenario:
1. user should be able to open flowrite and enjoy the design of the site

O. User story 15 from sprint 4: As a user, I want to have Grammarly so that I can fix my text before exporting
// Not Implemented

P. User story 16 from sprint 4: As a user, I want a rock solid firebase integration

Q. User story 17 from sprint 4: As a user, I want a pretty landing page to show off the project
1. there should be an accurate landing page in place for FloWrite

Manually Tested

Feature	Working (Y/N)	Notes	Fixed (Y/N)
Error if password < 6 characters	Y		
Sign out	Y		
Deleting Documents	Y	If there are 2 or more documents and the user deletes the last document in the list, the app crashes	
Deleting All Documents	Y	Deleting the final document will result in a new document being created.	
Fading capability while hitting 'Enter' and not 'Space'	N	If user repeatedly presses Enter but not space, the text will not fade.	
Incorrect password error	Y		
Saving Work	Y		
Entering E-mail	Y		
Going back & forth between log in & sign in page.	Y		
Create new document	Y		
Type in a new document	Y		
Type in an existing document	Y		
Export as DOCX	Y	Works but should be edited so that the user can choose the location in which to save the document	
Export as TXT	Y	Works but should be edited so that the user can choose the location in which to save the document	
Error if email format is not valid	Y		
Create 30 new documents	Y		
Copy & Paste	Y		
Document title shortens in document list to just the first line	Y		

Sign In	Y		
Enter text in sign in page	Y		
Enter text in log in page	Y		
Flowrite logo shows up on sign in page	Y		
Logo image shows up on log in page	Y		
Logo image shows up in settings page	Y		
When the document is copied and pasted, the document title is still shortened to just the first line	N	Not considered	

Automated Testing

Creates a document	Y		
Deletes a document	Y		
Gets a document	Y		
Gets a name	Y		
Gets all documents	Y		
Updates a document	Y		
Gets updated document	Y		
Gets updated name	Y		
Creates a new document & updates its name	Y		

Makes text disappear properly	Y
